

MCP in Practice

What is MCP?

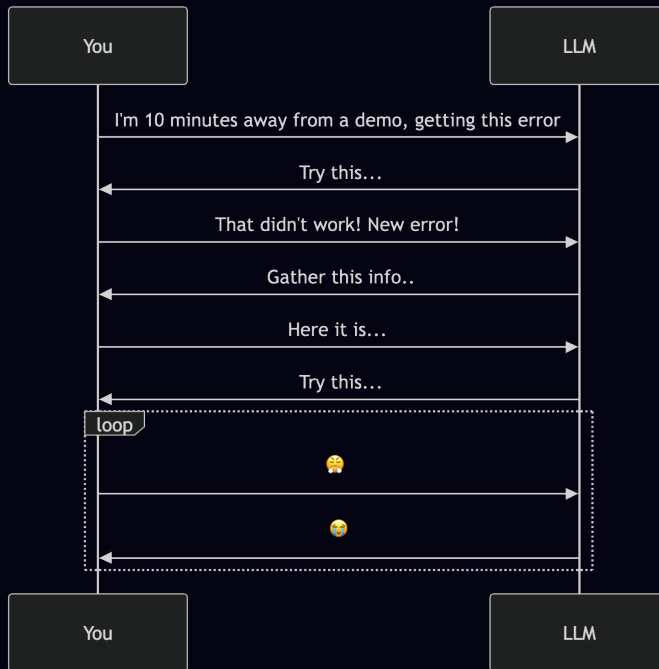

- Open Standard
- Created by Anthropic (Creators of Claude) in 2024
- Allows LLMs to connect to data and systems
- Enables agentic workflows

MCP gives tools to AI

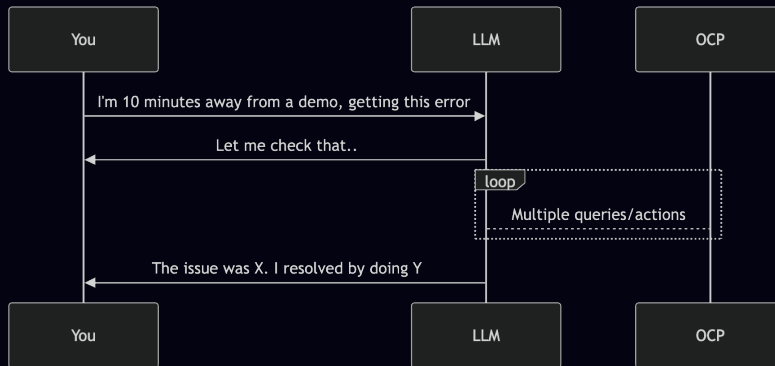

Why MCP?

Without MCP

Why MCP?

With MCP...

Tools for the demo

- `openshift-mcp-server` - Kubernetes/OpenShift API operations
- `gitea-mcp-server` - Git repository operations
- `argocd-mcp-server` - ArgoCD (aka Openshift GitOps) application management
- `minio-mcp-server` - S3-Compatible Object storage operations

DEMO

Have fun exploring the world of MCP!
